ABOUT

Multidisciplinary visual designer working across motion, AI-assisted media, branding, and experiential design. With a background in graphic design and an MFA in Media Design Practices, I create visual systems and media experiences that connect concept, atmosphere, storytelling, and emerging technology.

WORK EXPERIENCE

Chongqing Sangtiti Catering Management

Chongqing, China

Visual Designer May 2023 – June 2024

Led visual direction for digital campaigns across WeChat and Xiaohongshu, creating posters, UI assets, and short-form promotional content that strengthened brand visibility and improved audience engagement.

Developed a cohesive visual identity system across digital platforms, interior touchpoints, and promotional materials, aligning brand language with spatial and customer-facing experiences.

Produced 30+ promotional assets, including AI-assisted visual compositions, product photography, and edited videos for social media and marketing use.

Collaborated with architectural and production teams on spatial branding, material selection, vendor communication, and on-site execution to ensure design consistency from concept to implementation.

Beijing Sunsea Parking Management

Beijing, China

Graphic Design Intern 2021. May - August

Designed branding materials, brochures, internal graphics, and digital assets across multiple departments.

Created logo and visual direction for annual corporate events, supporting a more consistent internal identity system.

Produced photography and video materials for marketing and communication use across regional teams.

Coordinated with a 5-member cross-regional team on a national campaign, supporting concept development, production communication, and final asset delivery.
