

HARRY WU

UX / Product Designer

Los Angeles, CA | Open to relocation

626-242-2448 | Harry.wu313@gmail.com | Portfolio: landowanderer.com

SUMMARY

Multidisciplinary Product & UX Designer in Los Angeles, building context-aware solutions for real estate, catering management, and digital archives. I navigate ambiguous briefs to deliver shipped products—from conversational AI assistants to full-scale WeChat Mini Programs. A strong background in brand and motion ensures cohesive design across all user touchpoints.

WORK EXPERIENCE

VortexNet

UX / Product Designer | Los Angeles, CA | May – Sep 2026

- Led research with 18 screened ADU decision-makers through surveys, semi-structured interviews, and usability testing, identifying 2 core user types and 4 key pain points that reframed the product from a Q&A chatbot into a context-aware decision-support experience.
- Redesigned recommendation flows to surface user priorities, trade-offs, and next steps, introducing page-aware context and adaptive comparison states for side-by-side evaluation of 3 ADU models.
- Designed a consent-based specialist handoff flow that generated editable summaries for user review before sharing, addressing continuity and privacy concerns.
- Iterated the product through 12 design versions and 6 PM review rounds, with the adopted design increasing prototype task completion by ~28% and achieving a ~29% lift in post-launch lead conversion.

Sangtiti Catering

Visual & UI Designer | CN | May 2023 – Jun 2024

- Streamlined mobile ordering user flows and information architecture, improving the ordering experience and increasing task conversion rate by ~18%.
- Expanded the Anaago brand across campaigns, social channels, and physical spaces by producing photography, video, and motion content through AI-assisted workflows.
- Partnered with the art director to implement brand-aligned spatial graphics and on-site materials, driving a ~31% increase in offline-to-online (O2O) member registrations.

Sunsea Parking

Graphic Design Intern | CN | May – Aug 2021

- Established visual direction for annual events by designing brochures, logos, and digital graphics for departmental communications. Produced photo and video content and coordinated delivery across a five-person, cross-regional team.
- Produced photo and video content and coordinated deliverables across a 5-person cross-regional team to support event and departmental communications.

SELECTED WORK

Field Brief | Apple Maps Redesign

Product / UX Designer | Mar – May 2026

- Synthesized outdoor-planning research and competitive analysis across map and trail applications to define prioritized pre-trip guidance features for Apple Maps.
- Developed information architecture and high-fidelity UI designs using an SF Symbols-based icon system aligned with Apple platform design conventions.
- Delivered a motion prototype and product film to communicate feature value, user experience flows, and design rationale to stakeholders.

ZNTR | Brand & Web Experience

Brand / Web / Motion / Visual Design | Apr – Jun 2025

- Created a modular brand identity and web experience for a sports-culture archive by combining indexed editorial layouts, expressive typography, motion design, and AI-generated visual assets.
